

WHY

you should become a member of NECC!

OVERVIEW OF NECC

The USCC Nebraska Chapter was founded in February 2019 as a program of the Nebraska Recycling Council, and an official state chapter and affiliate organization of the US Composting Council. As a USCC state affiliate, the Nebraska Chapter of the US Composting Council is dedicated to the development, expansion, and promotion of the composting industry in Nebraska using science, principles of sustainability, and economic viability.

BENEFITS OF BEING A NECC MEMBER:

1. Join a meaningful voice

on policy specific to requirements and specifications of compost use and organic recovery. Help educate other industry professionals and the public, encourage and guide compost research.

2. Opportunity to network and collaborate

with other compost industry leaders in Nebraska. Work together to promote best composting practices.

3. Updates on compost markets and marketing strategies

and best practices throughout the State. Collaborate to enhance product quality and markets.

4. Training opportunities

through periodic state and regional compost operator trainings.

5. Learn about new technologies

by receiving compost specific articles, newsletters, and webinar opportunities.
